## **OUR HISTORY**

In 1998, Fiest Gloves wanted to establish itself as an authority in the boxing industry through the design, integrity of its equipment and our total commitment to the sport. We've always felt that a certain magic happens when you put your hand on a boxing glove. You feel its power and at the same time understand your own.

Boxing gives hope to some, changes the lives of others and creates champions from a select few who are willing to challenge their limits. Whatever your goals are, we want to help you achieve them.
